

# CTI implementation partners

List of trained individuals  
21 January 2020

# CTI implementation partners

Our CTI implementation partners help companies with the implementation of the CTI framework into their daily business operations. They are recognized as partners after they participated in an interactive training program to understand the CTI on a detailed level. They can offer several benefits for companies that need additional resources to start adopting the CTI.

## Trained resources for different needs

The individuals listed in the next few pages were trained by WBCSD, KPMG and Circular IQ to provide them with an in depth understanding of how they can support companies from different industries with different support needs regarding their circular transition.

This means that you can get started with an assessment straight away.

## Community of practice

In the months and years after the launch of the CTI and the online tool, the project for Circular Metrics continues to further develop both the framework and the tool, based on companies' use and needs. Through the group of implementation partners we aim to build a community of practice that can provide us with insights in further needs. Additionally the partners can share and learn from each other as they use the tool and run into challenges.

A partner from the following list will always be aware of the latest updates and can draw from the experience from the group of trained professionals.

For more details, the partners bio and company profile can be found in the next pages

# Suzanne Kuiper KPMG | CTI Development partner

**Title** Senior Consultant | RC Sustainability  
**Contact** [Kuiper.Suzanne@kpmg.nl](mailto:Kuiper.Suzanne@kpmg.nl)  
**Location** Amsterdam, The Netherlands

## Suzanne bio

Suzanne Kuiper has been seconded from KPMG to the WBCSD for the development of the Circular Transition Indicators framework and co-authored the report. She can provide you with first-hand knowledge on all details of the CTI framework. Her experience ranges from multinational organizations to SMEs in a broad international setting and in diverse array of sectors and industries.

## KPMG profile

KPMG works with organizations across the world to build business that is sustainable in the long term. Our [sustainability professionals](#) around the globe can support you from start to finish, or at specific points on the journey where you need help the most. KPMG powers the development of the Circular Transition Indicator framework and is involved in performing the class-room trainings of the CTI Academy. KPMG partners with CircularIQ, the software provider of the CTI tool on an ongoing basis.

# Andy Whiting ERM

Title	Consultant
Contact	<a href="mailto:andy.whiting@erm.com">andy.whiting@erm.com</a>
Location	Manchester, UK

## Andy bio

Dr. Andy Whiting is a consultant within ERM's Product Sustainability team. He has ten years of experience in the field of life cycle assessment (LCA). After completing his PhD at University of Manchester, Andy joined ERM as an environmental consultant and has been applying his experience with LCA, carbon footprinting, and sustainability to projects for clients across a wide range of sectors.

## ERM profile

ERM is a leading global provider of environmental, health, safety, risk, social consulting services and sustainability related services. We work with the world's leading organizations, delivering innovative solutions and helping them to understand and manage their sustainability challenges. To do this, we have more than 5,500 people in over 40 countries and territories working out of more than 160 offices.

# Jamal Miah ERM

**Title** Senior Consultant  
**Contact** [jamal.miah@erm.com](mailto:jamal.miah@erm.com)  
**Location** Harrogate, UK

## Jamal bio

Jamal is an environmental sustainability expert with 9 years' experience working with clients across a range of sectors, in particular the FMCG. His expertise is diverse covering a range of environmental footprinting methods (LCA, carbon, water, biodiversity), eco-design, sustainable innovation, renewable energy technologies, supply chain mapping, and sustainability strategy.

## ERM profile

ERM is a leading global provider of environmental, health, safety, risk, social consulting services and sustainability related services. We work with the world's leading organizations, delivering innovative solutions and helping them to understand and manage their sustainability challenges. To do this, we have more than 5,500 people in over 40 countries and territories working out of more than 160 offices.

# Jean-Baptiste Petit PwC

**Title** Senior Manager  
**Contact** [jean-baptiste.petit@pwc.com](mailto:jean-baptiste.petit@pwc.com)
